Harsh Bhanushali

Full Stack Developer (MERN + Next.js + Nest.js)

+91 9326172843   bhanushaliharsh1@gmail.com   linkedin.com/in/harsh-bhanushali-a3941b261

Professional Summary

A results-driven Full Stack Developer with 2+ years of experience building scalable SaaS platforms, ATS systems, and micro-front end architectures. Skilled in JavaScript, Typescript, React.js, Next.js, Nest.js, and MongoDB. Passionate about creating robust, high-performance, and user-centric solutions.

Experience

Captico Consultancy – Mumbai

MERN Stack Development Engineer (Aug 2023 – Present)

- Built micro-front end architecture using Module Federation, improving code scalability and reducing build time by 30%.
- Developed Import, Export and Key value pair functionality which increases the efficiency of the task creation by 40% and decreases the task creation time by almost 60%.
- Designed and deployed Nest.js micro-services to handle high-volume requests, enhancing system reliability.
- Implemented Leaflet Maps for real-time vessel tracking, improving UX for maritime logistics clients.
- Optimized MongoDB schemas, boosting query efficiency and reducing response time by 40%.
- Delivered SaaS system ("My Product Path") with advanced search, pagination, and data filtration, increasing recruiter efficiency by 50%.
- Developed reporting & analytics modules with multi-level filters for Adryde (Ad-tech platform), driving smarter business insights.

Major Projects

- **V Rudder(Cron Module)** – Developed Import, Export Functionality with key value pair as a module, Improved scheduling trigger across the module to generate accurate CRON Jobs
- **V.Erde (They R)** – Developed micro front-ends, interactive map UI, and back-end services for real-time maritime data visualization.
- **My Product Path (ATS SaaS)** – Developed modules with search, filtering, and pagination; optimized MongoDB queries for seamless recruiter workflows.
- **Adryde** – Built CRUD modules, advanced reporting dashboards, and targeting features (by category, demographics, time slots).

Education

- Bachelor of Technology – Information Technology
- University of Mumbai (2020 – 2023) | **CGPA: 9.0**

Skills

JavaScript (ES6+), TypeScript, Node.js, React.js, Next.js, Nest.js, Micro-Frontends (Module Federation), REST APIs, Material UI, Redux, MongoDB, Git, Agile/Scrum
